PROFESSIONAL SUMMARY

Community Moderator & Web3 Specialist with 5+ years in crypto since 2020. Proven track record scaling Discord communities — grew DataHeaven from 6 to 20,000+ members in 6 months through strategic moderation and member-first support. Expert in Discord/Telegram management, onboarding, conflict resolution, and community operations across DeFi, NFT, and Layer 2 ecosystems.

CORE COMPETENCIES

Community Management | Discord Moderation | Telegram Administration | Member Onboarding

User Support | Community Engagement | Conflict Resolution | Community Operations

EXPERIENCE

Discord Moderator • DataHeaven — Crypto Project

✦ 2024 — 2025 (6 Months) • Remote

- Scaled community from 6 to 20,000+ members in 6 months through proactive engagement and daily moderation
- Managed Discord activities including onboarding, spam removal, channel management, and event coordination
- Delivered real-time user support resolving technical, wallet, and platform queries with high satisfaction
- Established community guidelines, captured member feedback, and reported insights to core team

Web3 Community Contributor • Multiple Crypto Projects

✦ 2020 — 2024 • Remote

- Actively supported Discord and Telegram communities across DeFi, NFT, and Layer 2 ecosystems
- Assisted with member onboarding, FAQ support, airdrop campaigns, and governance discussions
- Built deep practical knowledge of wallets, DeFi protocols, NFTs, and blockchain fundamentals

PROJECTS & PORTFOLIO

Personal Portfolio Website • Self-Built — 2025

🔗 portfolio-nine-delta-2a60dreh50.vercel.app • github.com/nitishweb3

- Designed and deployed portfolio using HTML, CSS & JavaScript — demonstrates continuous technical learning

EDUCATION

Self-Directed Web3 & Technical Learning • Online • 2020 — Present

- 5+ years crypto/blockchain self-study. Completed HTML5 & CSS3 — currently learning JavaScript.
